

Direct Laboratory Testing

It's time for you to take a proactive approach with your health by taking advantage of Direct Laboratory Testing* at Clinton Memorial Hospital!

Laboratory Services at CMH Regional Health System offers 34 screening tests that only involve a blood draw or urine sample. This service is available Monday through Friday 7 a.m. to 7 p.m. and Saturday mornings from 8 a.m.-12 noon.

Our professional technicians are conveniently located on the ground floor of Clinton Memorial Hospital, just off the atrium and around the corner from the Patient Information/Registration desk.

Let the staff at the Patient Information/Registration desk know you are here for Direct Laboratory Testing. The staff will provide a list of tests for you to choose from. After selecting your tests, all you have to do is sign a consent form, pay for the testing (credit cards accepted) and have blood drawn.

All of the specimen testing is done on site in CMH Laboratory Services. The cost of tests range from \$8 to \$30.

It's just that easy to start taking your health more seriously!

Take a proactive approach to your health with direct laboratory testing!

*Direct Laboratory Testing is when a patient chooses to have laboratory testing performed from a list of lab tests without a physician's order. The patient assumes the responsibility for the results and will share them with a physician if they wish.

CMH will mail results to patients along with a general explanation of them. The results will not be sent to CMH Medical Records/Health Information Management or directly to your physician. Results will be maintained electronically in CMH Laboratory Services, noted as "self-ordered".

Patients must pay for the testing at the time the specimen is taken and an insurance company (including Medicare and Medicaid) will not be billed.

In the event that a laboratory result indicates a potential medical or health risk, the patient will be contacted and advised to seek immediate medical attention.

Minors requesting Direct Laboratory Testing must have parental consent.

Tests

- | | | | |
|--|--------------------------------|--|------|
| <input type="checkbox"/> ALT/AST – Liver | \$15 for pair, \$10 for one | <input type="checkbox"/> Phosphorus | \$10 |
